

MD410 AI ENC Headset

Artificial intelligence - innovation in the headset industry

[By Miketel Devices Pvt Ltd](#)

MD410 AI ENC Headset Perfect for MS Teams and other UC

• Intelligent Microphones

Ensure a clear and high Privacy call any time any where

Three noise-cancelling microphones block out 100% of environmental noise, makes you be heard clearly

AENC voice™, our self-developed algorithms, identify your voice from the others, make sure that only your messages getting through

Compatible with Microsoft Teams, Call ANS and END function from headset.

Great Stereo Sound

Enjoy an immersive music listening

- **Passive Noise Cancellation:** on-ear earcups, with it's memory foam cushions providing a closer seal for more sound isolation
- **Built-in powerful leak-tolerate 27mm speaker** delivers rich, high definition audio for calls and music

360 Busy light

For less interruption and fewer missed calls

- It grows red when you're on a call, telling everyone that you are busy. When you really need to focus, you can also turn it on manually
- The red lights flash when you have an incoming call on Microsoft Teams.

All day comfort

With it's lightweight, flexible design

- The light weight body with it's 90° pivoting speakers and adjustable headband to accommodate to all users
- The skin-friendly protein leather covering the memory foam cushions provide you a premium experience for all-day-long wearing.

Thank you
